

Attendance – Mark Thimke, Patti Stickney, Jeff Jaeckels, Jennifer Buzicky, Kevin Garstka, Laurel Sukup

Visuals

- Walk through side by side maps of Tier 2 steps with ROP permitting steps
- Discuss how the process would work for new source vs modifying source
- Jeff will show MG&E's contract as an example

Questions for Laurel re Green Tier

- Timing – Tier 2 details
 - Does a source need a certified or equivalent EMS before they receive Tier 2
 - How much time from commencing operation of the source should we give to obtain Tier 2
 - Can a source apply for Tier 2 prior to constructing?
 - What happens or what enforcement is there if sources don't comply with requirements of Tier 2?
 - Is there a requirement in the statute for progress reports under Tier 2?
- Contracts
 - Can qualifying under a contract be the same as obtaining Tier 2 or are they always different processes.
 - Are contracts enforceable
 - Can contracts help us deal with the timing issues
- How do we memorialize that someone has met all the requirements for Act 70 incentive? Can it be in the participation contract.

Provide a Redraft of the GT ROP

- Modeling, compliance demonstration, LACT, language
- Eligibility requirements/application

If time permits

- Model language in participation contract

Next meeting
